February 8,1920.

Mr.I.W.Clokey,
802 Equitable Building,
Denver,Colorado.

My dear Sir:

I am very much pleased with the specimens received from you and am sending you by express, a set in return. To make up the full number,I had to add to the Southern California material a little from the East; I hope that this will be satisfactory.

You spoke of more sedge material. I have quite a little bunch of duplicate grasses from the Baker Herbarium and collected by a number of men, and issued largely by the Division of Agrostology,U.S.Dept.; if you would care for any of this,I shall be glad to continue the exchange.

Very truly yours,
